

Music with a Pi

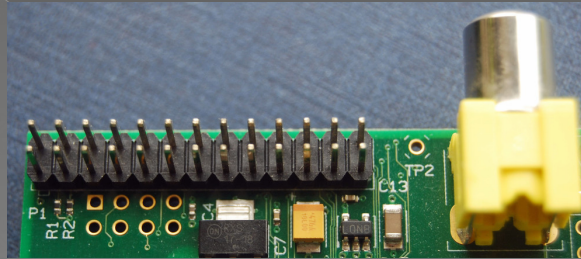

The screenshot shows a terminal window with a Python script that plays a sequence of notes. The script uses the 'play' command to play a note and 'sleep' to pause between notes. It plays the note '64' for 0.5 seconds, then '62' for 0.5 seconds, then '60' for 0.5 seconds, and finally '62' for 0.5 seconds. This sequence is repeated three times. The terminal output shows 'Starting...' and the script execution progress.

```
play 64
sleep 0.5
play 62
sleep 0.5
play 60
sleep 0.5
play 62
3 times do
play 64
```
