Why Dabbledoo?

“DabbledooMusic is a creative and fun way to learn about music using a new system of music notation designed specifically for teaching children. The system has been created with the aim of giving all children access to quality music education allowing teachers to embrace music as a subject, regardless of their previous musical experience.”

The Front Door

- Use shapes and symbols to make music!
- Graphic notation is a great way to encourage learning through creativity and practical experience.
- The front door is a fun introduction to graphic notation with activities for all ages.

The Clock

- A resource that is open to endless musical possibilities.
- The most practical and creative way to get music making happening in the classroom.
- Follow the colour coded clock and get your classroom ensemble started.

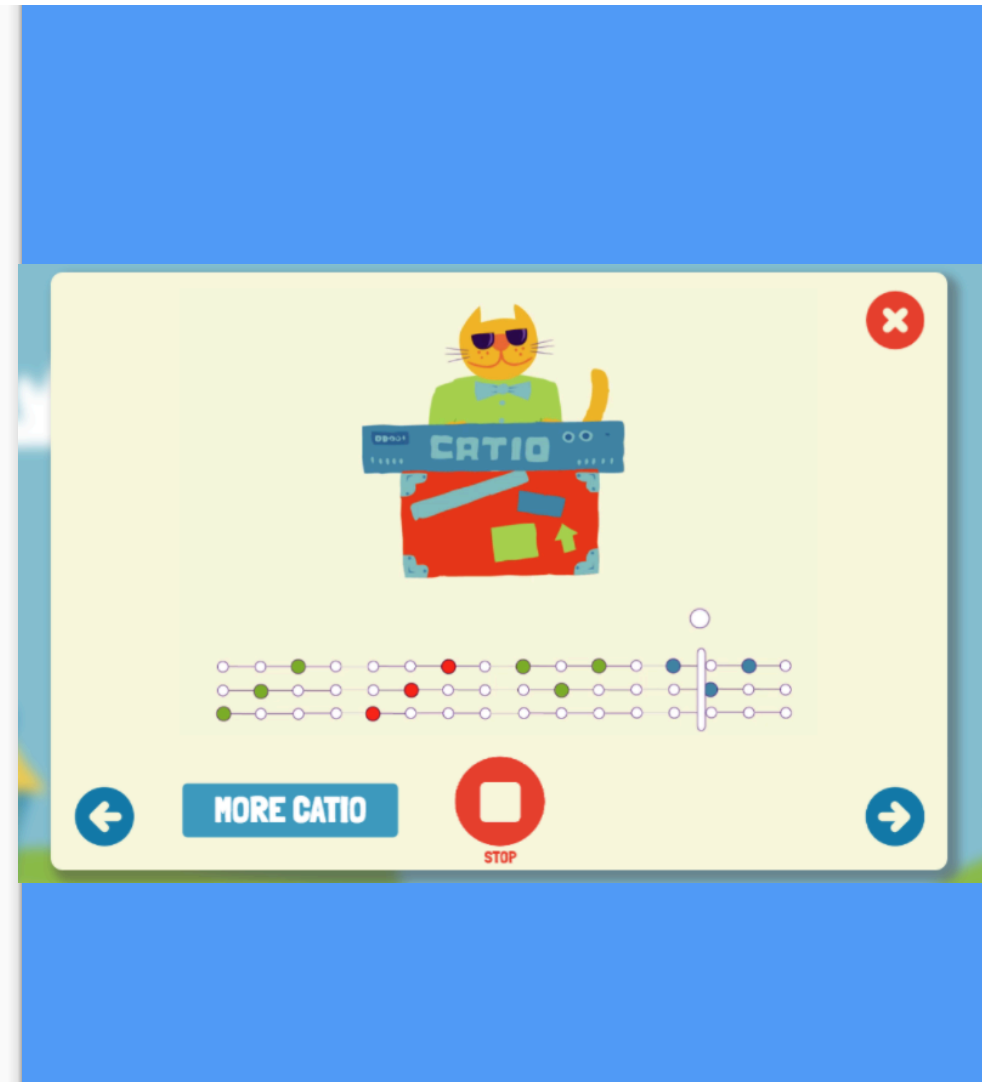

Igor

- Learn rhythms
- Ideal for exploring rhythm in the classroom. A series of rhythm activities and performances will have your class playing in time together.
- Igor will keep the beat
- Create your own rhythms for everyone to play.

Jazz Cat

- Learn about melody and pitch with a jazzy twist
- This section will have your class singing and playing melodies with the incredible jazz cat.
- Sing on your own or with some jazzy chords on the piano.

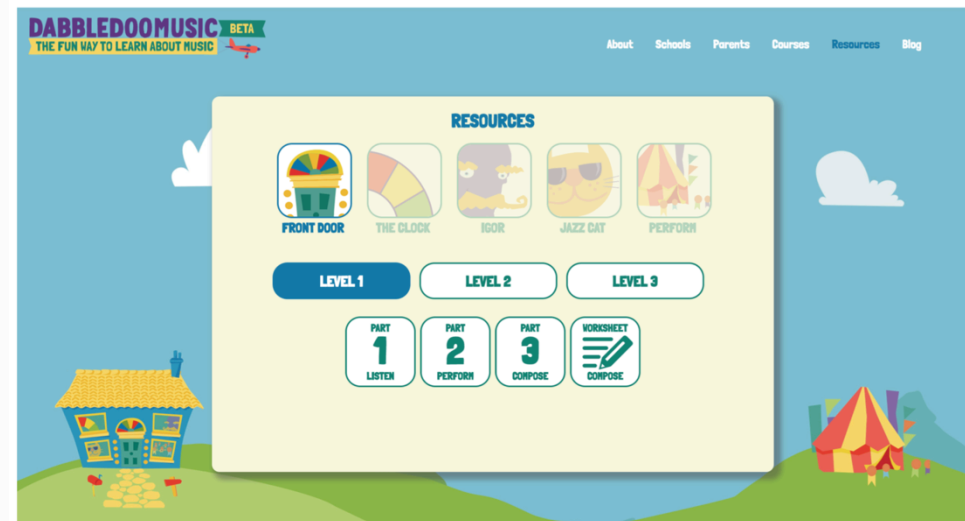

The Planning Process

- **The full curriculum provides weekly lesson plans, lessons and schemes of work for each individual teacher delivered through email to assist term and yearly planning.**
- **Each week is laid out step by step ensuring that the full range of musical concepts are covered each year.**

The Resources

- Over 40 interactive resources .
- They move step by step through the music curriculum covering all area of the three strands; **Listening**, **Performing** and **Composing**.
- The resources are divided into 5 areas, each one introducing different musical concepts, through activities and fun musical characters.
